Address Changes Using Validity Dates

University of Kentucky
End User Documentation
April 2009

This document outlines the steps for updating student addresses in the GUI using the validity date option. Validity dates gives the user the ability to change an address using a future date. This process will use the following transaction code: **PIQST00.**

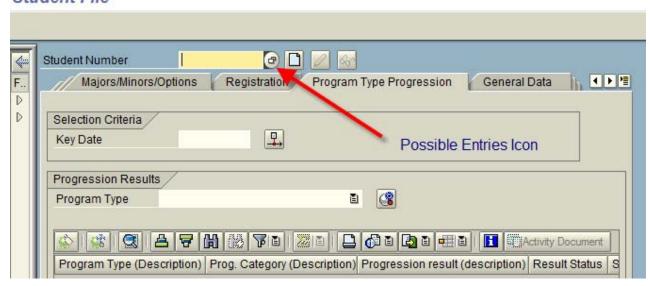

SAP Menu Path and Transaction Codes:

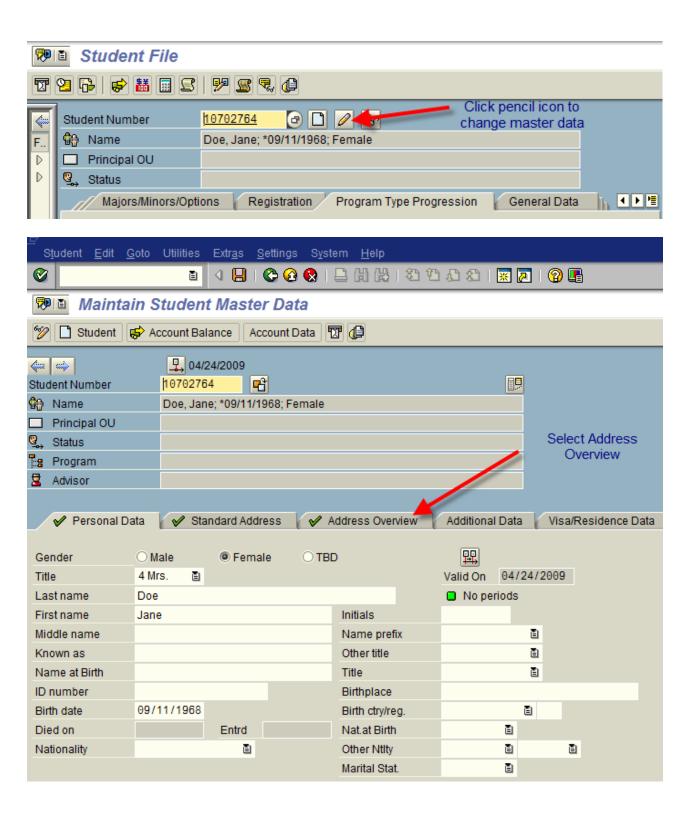

SAP Easy Access

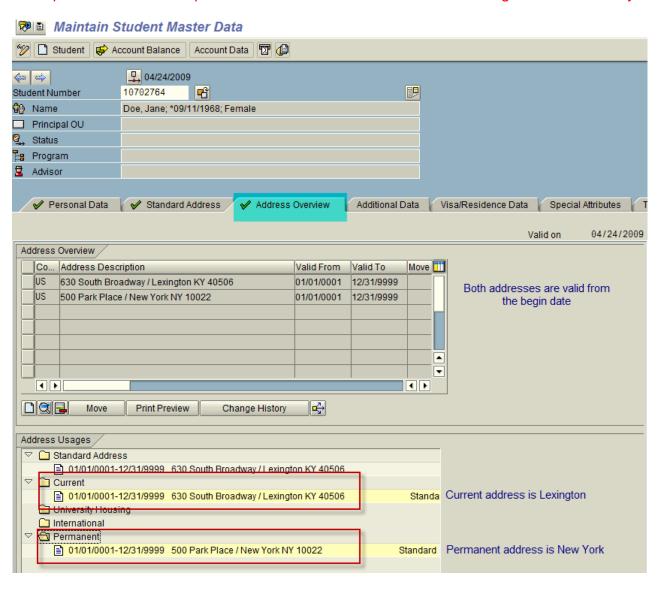

Enter the student's UK Id number in the Student Number field or search by clicking the possible entries icon.

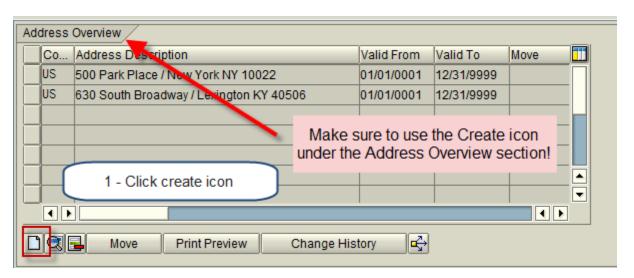

Student File

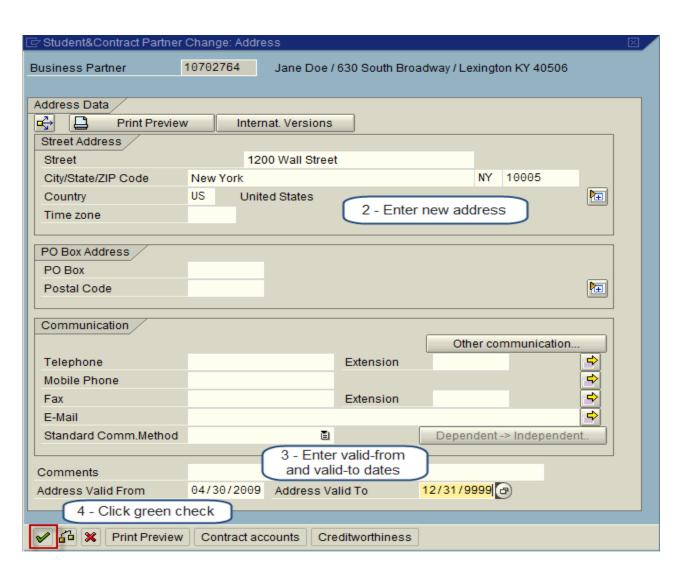

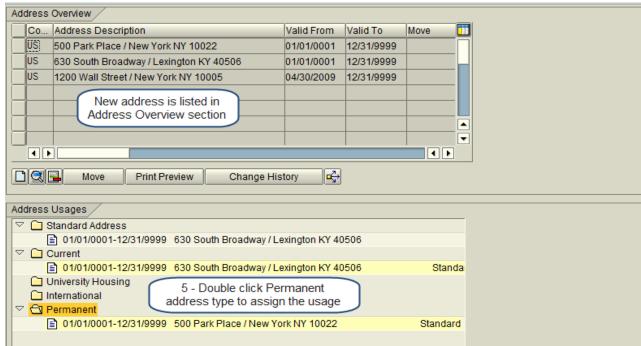

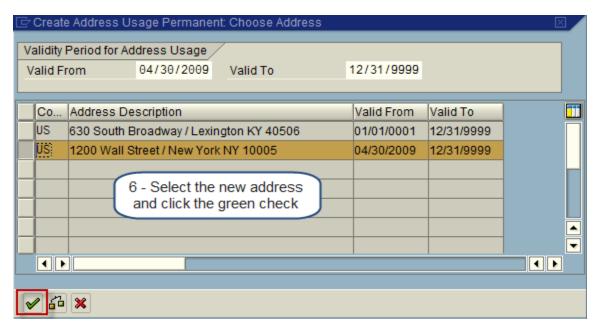

Example # 1 - Student requested the **PERMANENT** address be changed effective today.

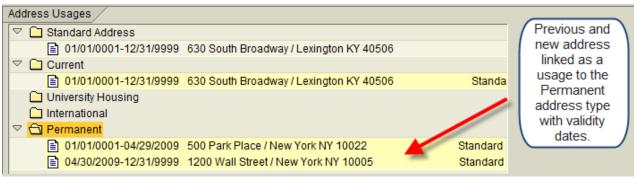

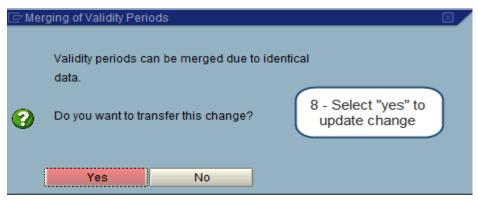

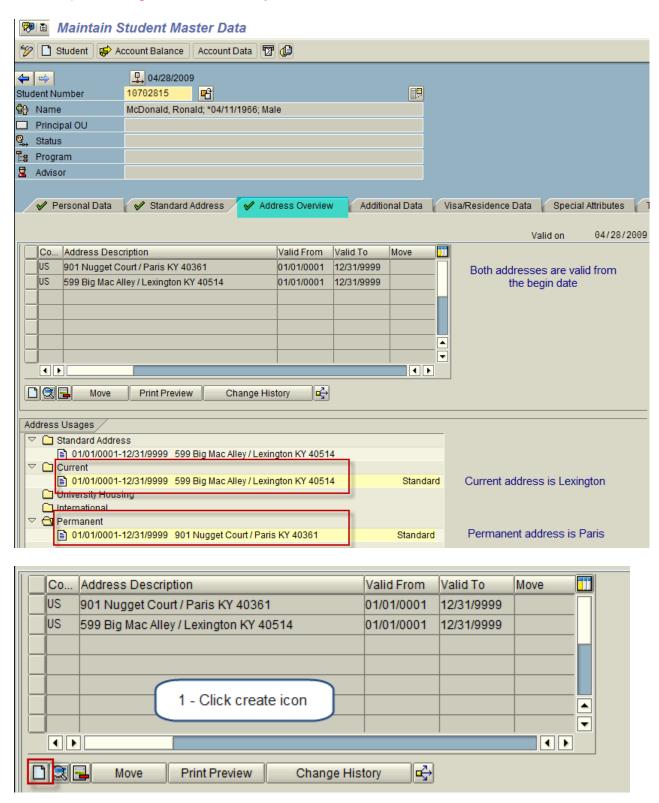

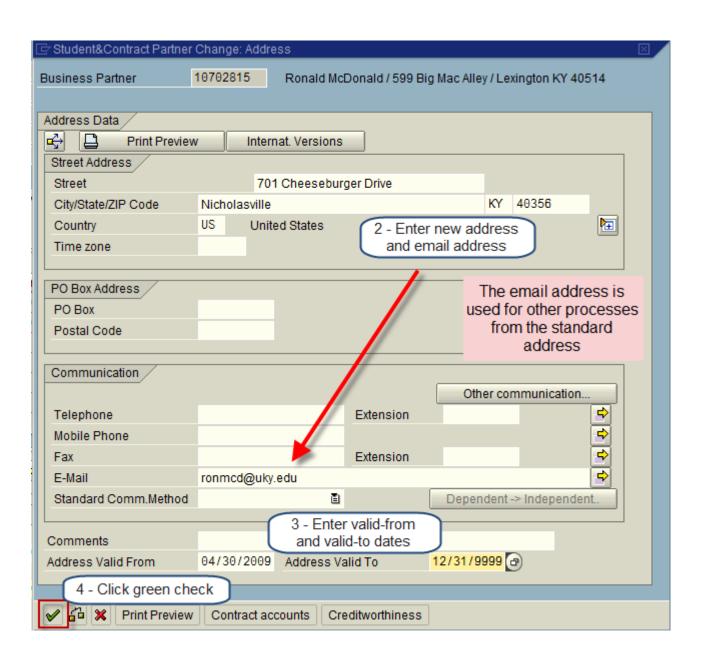

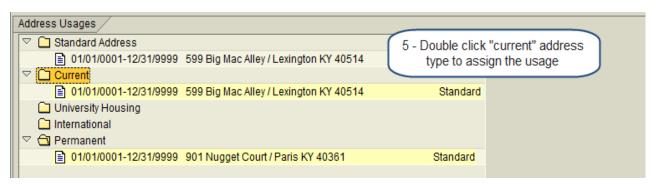

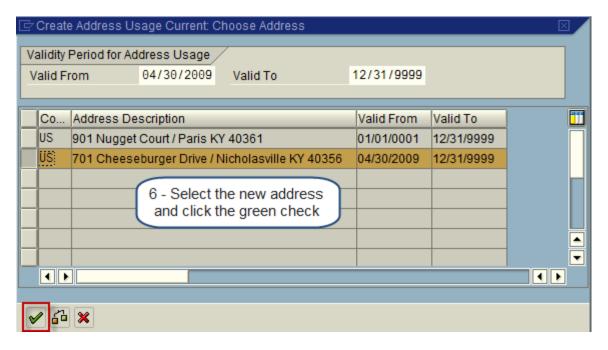

Example # 2 – Student requested the **CURRENT** address (which is also the **STANDARD** address) be changed effective today.

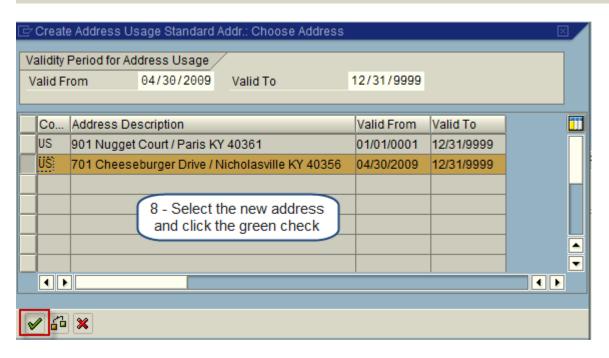

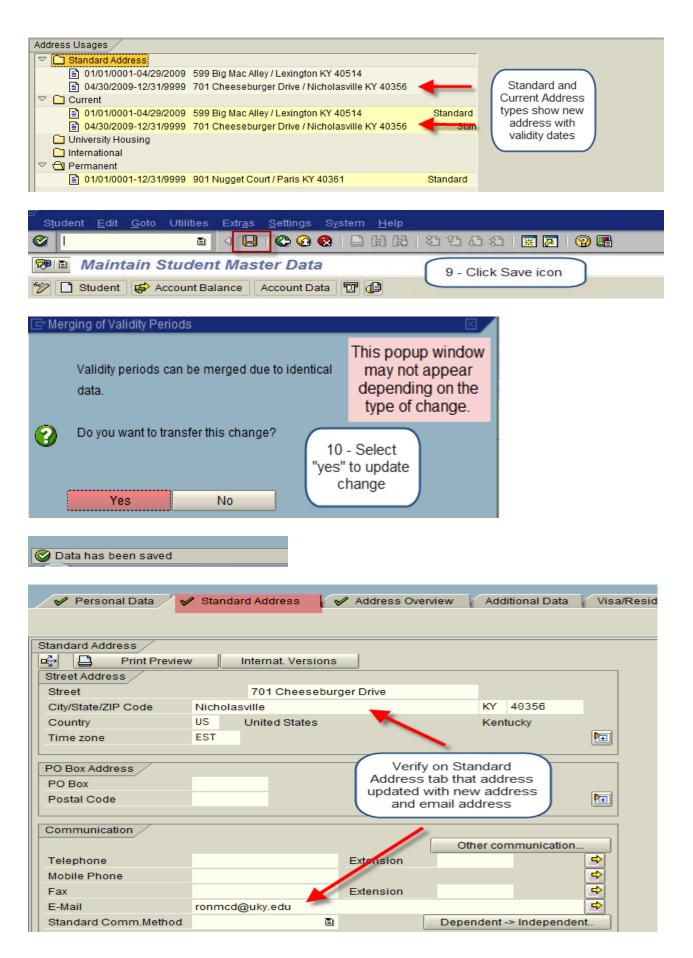

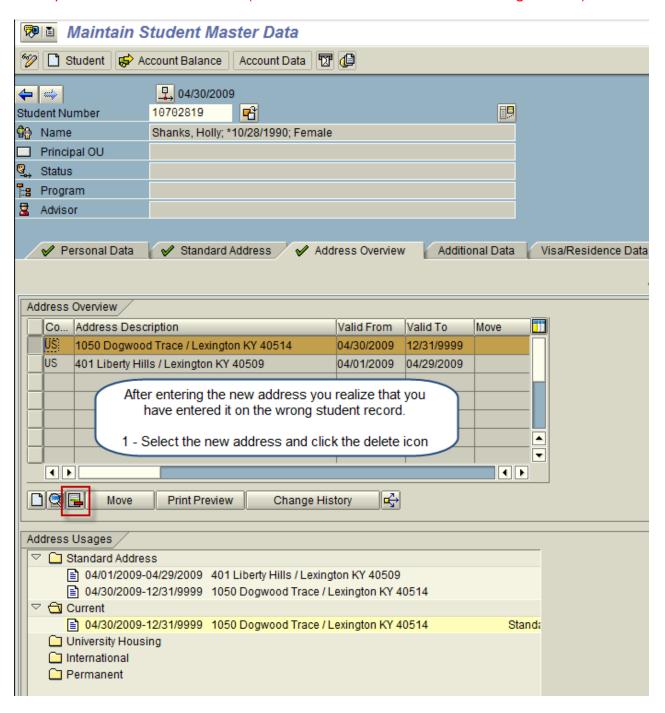

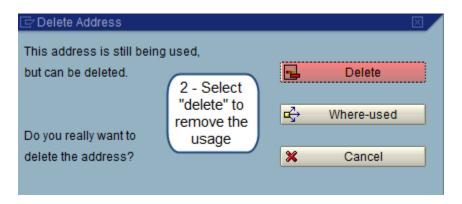

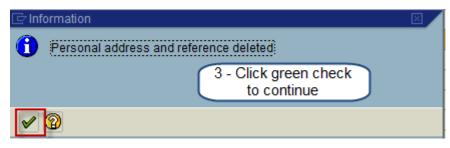

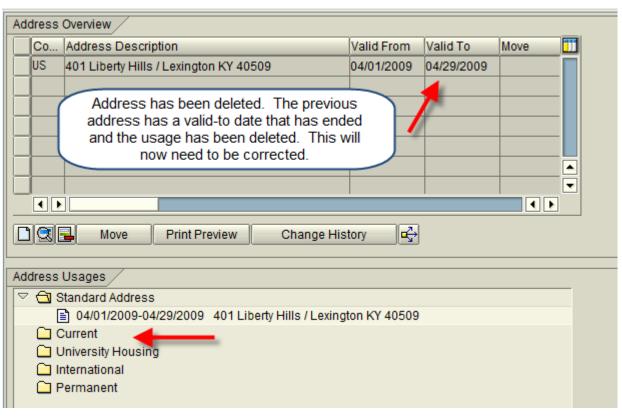

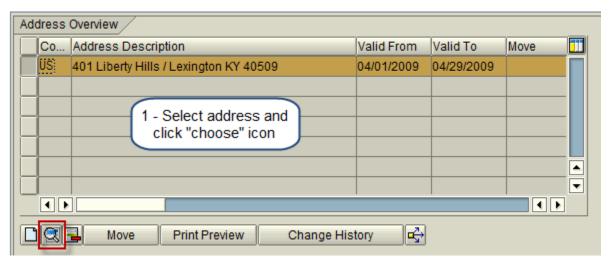

Example # 3 – Address Deletion (the address was entered on the wrong student)

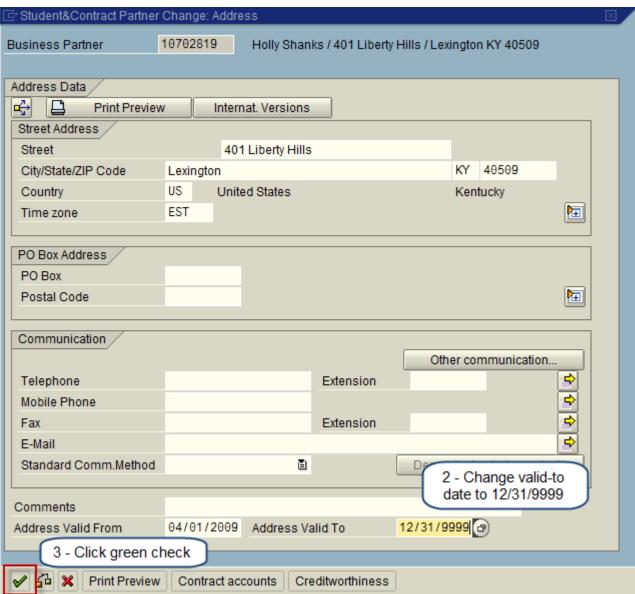

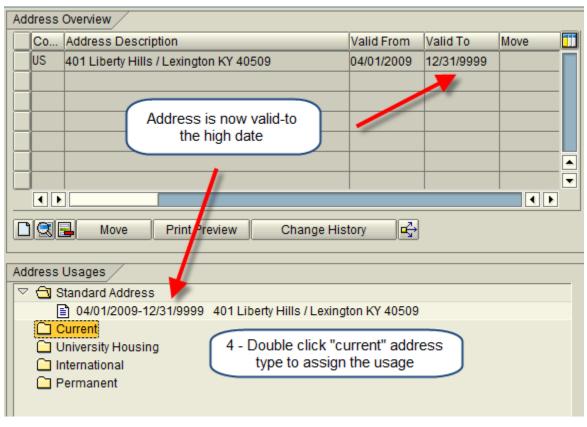

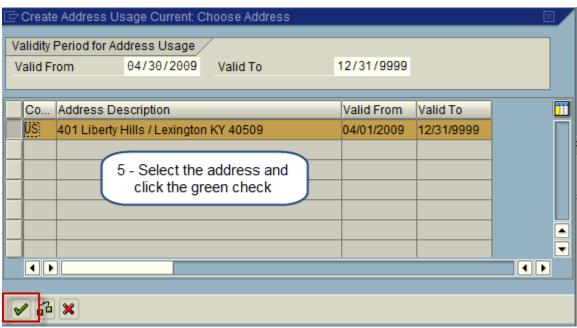

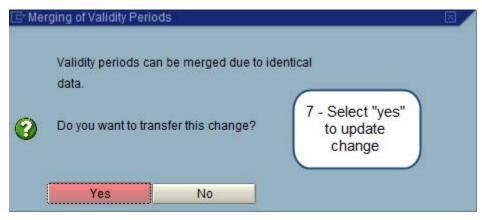

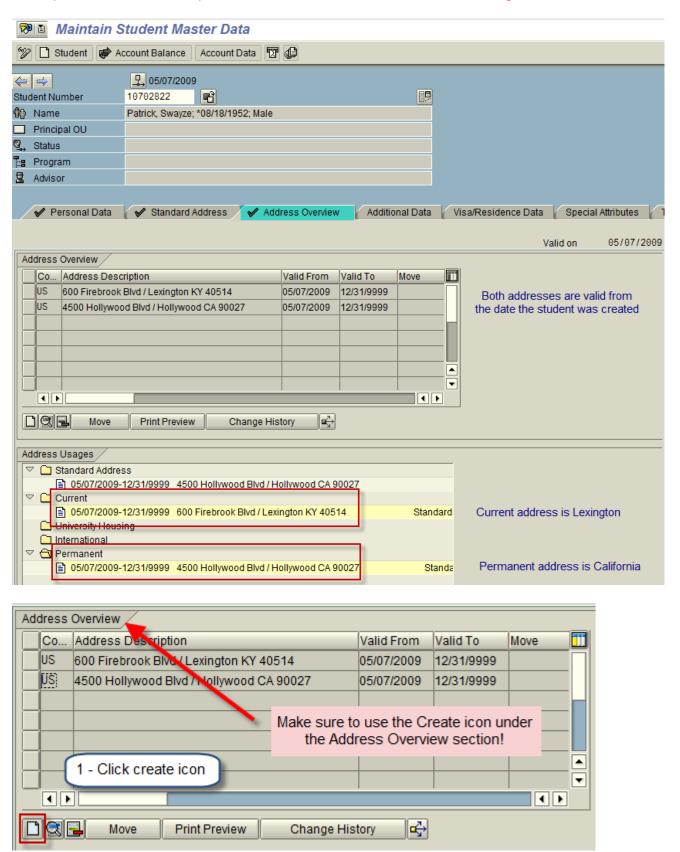

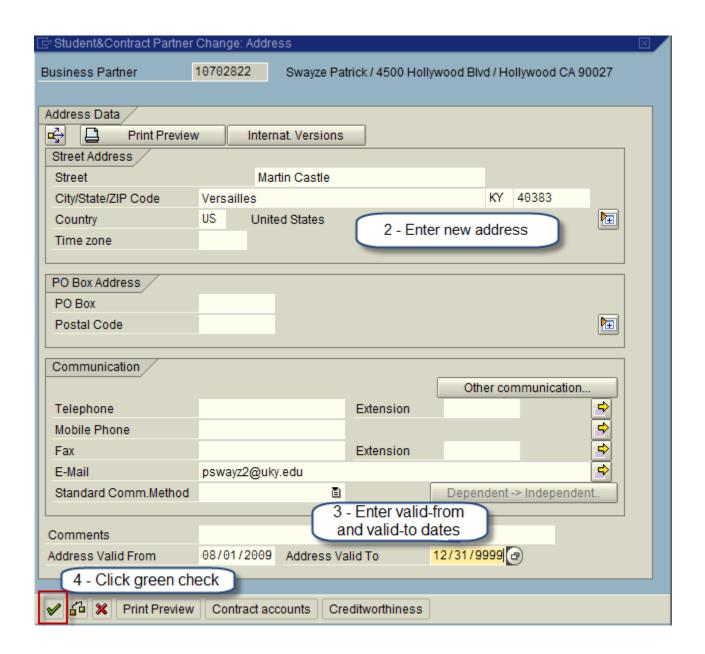

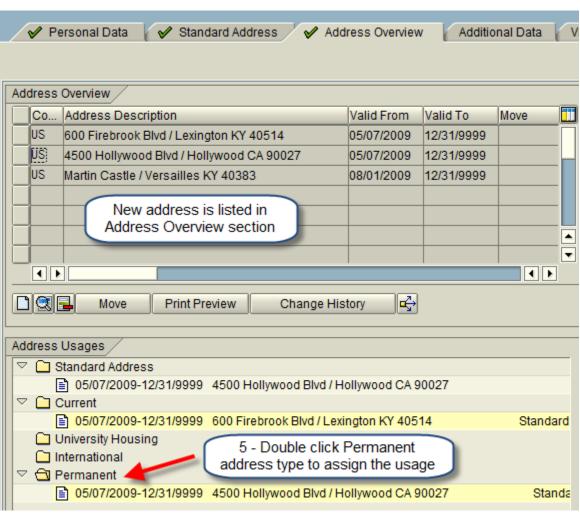

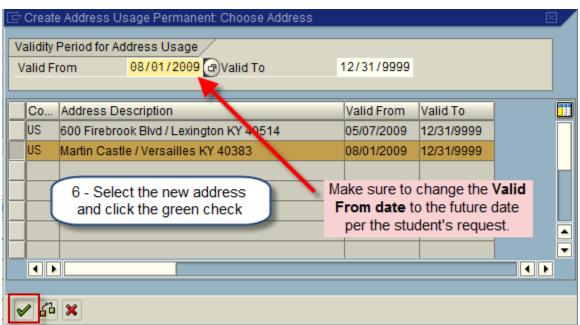

Example # 4 – Student requested the **PERMANENT** address be changed effective 8/1/09.
