Click the <b>Delete Acad</b> <b>Specializations</b> button. This button does not delete – instead, it <i>delimits</i> (ends) the specialization and keeps a history of changes. <b>WARNING:</b> When ending a specialization, be aware that entering a <b>Valid From</b> date that is the same date as the specialization's <b>Start Date</b> will actually delete the specialization. This is not desirable because it removes information from the student's specialization history.								
If you had not entered a date in the <b>Key Date</b> field, you can still enter it here; however, when you press <b>Enter</b> to confirm the date, a system warning will appear in the lower left corner of the screen. Simply press <b>Enter</b> to proceed.	Specified date 01/21/2010 does not match session start date 01/13/2010; check the entry							
Click the <b>Delete Specialization</b> button for the item you want to delimit.	Specializations     Module Grp Cat. Click the <b>Save</b> icon.	Study Edit Goto System Help Delete Academic Specializ
When the system message box displays, press <b>Enter</b>	☑ Information   ☑     ☑ Data record successfully created or updated:     ✓ @
You are returned to the Majors/Minors/Options tab. The specialization you delimited is no longer visible.	Image: Acad. Specializations   Image: Acad. Specializations     Image: Acad. Specializations   Image: Acad. Specializations

**Note:** A delimited specialization can still be displayed if you enter a date in the **Valid From** field that is prior to the specialization's **End Date**.

To see the history of a student's specializations, simply remove the date in the **Key Date** field and press **Enter**. All specializations will be visible, and those that have been delimited will display an **End Date** *prior to* 12/31/9999. Specializations still in effect will have an **End Date** of 12/31/9999 (high date). **NOTE:** Occasionally you may discover a specialization that should no longer be active and needs to be end-dated (delimited).
